simplyendo Autumn newsletter

Welcome to our Autumn newsletter .

simplyendo opens a new referral centre in Chester

We are delighted to announce that simplyendo now has an endodontic referral base in Chester and will be offering a full range of endodontic referral services from this additional base.

Both Mike Horrocks and Nilesh Jadav will be working in the new Chester centre, whilst still offering the same services at simplyendo's main referral centre in Liverpool.

Our clinical addresses:

simplyendo in Chester,
simplyendo
5-7 Overleigh Road
Handbridge
Chester, CH4 7HL

simplyendo is now offering a restorative service for the final coronal restoration

At simplyendo, we are continually looking for ways to improve our service to you, our referrers.

Historically, It has been well documented that the final coronal seal is as important in the long term success of endodontic treatment as the root filling itself. We are therefore delighted to announce that from the 1st November

2008 we will be offering a service to fabricate the final coronal restoration for you.

Should you require us to complete this for your patient, then please mark clearly on your referral letter/pro-forma and we would be happy to discuss this aspect of treatment with your patient at the initial visit. Please find below guidance on the

fees for this optional service.

Cores (where indicated) are provided at no cost

Porcelain bonded to metal crowns, from £375

Porcelain/Composite Onlays, from £325

All Ceramic crowns, from £500

More news about our Postgraduate Endodontic Certificate Programme in association with Chester University

In June 2008, our inaugural groups of dentists completed their PG Endodontic Certificate Programme, and we had a staggering 100% pass rate!

If you are interested in this programme and would like to join us, we ask that you initially complete our 10 day endodontic programme based in Liverpool. A further 6 days of study at Chester University completes the PG Endodontic Certificate. The dates for the programmes means that the course should fit in easily with your hectic clinical schedule.

Our next 10 day programme starts in Liverpool in December

Dates for this programme are

- 8th/9th December 08
- 2nd/3rd February 09
- 9th/10th March 09
- 23rd/24th March 09
- 27th/28th April 09

Further details on our Postgraduate Endodontic Certificate programme are available online at:

www.mph12.com

For further details or to apply. Please contact Lorna

via email to lorna@simplyendo.com

or telephone on **0845 363 0400**

“Our next 10 day programme starts in December 2008 and is a fasttrack programme”

simplyendo programmes in the North of England

The base of simplyendo remains in Liverpool and as usual, we are running two programmes per year from this base. Our next programme starts in December 2008 and is a fasttrack programme running two consecutive days per month over a five month period.

For more details, check our website at: **www.simplyendo.com**

Don't forget that on completion of the 10 day programme, you will have the option to consider the Postgraduate Endodontic Certificate Programme by completing 6 further days of study, if you wish.

A recommendation from one of your colleagues

A recent testimonial,

“Many thanks to all of you. You can't imagine how the course has helped me so much and changed the way I look at RCT, especially that my prior knowledge was ZERO about Endodontics because I hated it.

I did not imagine that one day after I have graduated that I will be able to do RCT such as Mike's RCT

Now I am very proud of my RCT's !”

GDP (Northern England)

simplyendo clinical — Our team

Dr. Mike Horrocks BDS MSc

Mike has been in practice for over 20 years, having graduated from the University of Liverpool in 1984. He has a master's degree in endodontics from Manchester, where he also taught postgraduate dental students on the Masters programme on a part-time basis. He established simplyendo in 1998 to focus on endodontic treatments, and to help share his passion for the subject of endodontics with his colleagues through simplyendo's teaching programmes.

Dr. Nilesh Jadav BDS MSc

Nilesh has over 11 years practice experience having qualified from the University of Manchester in 1997. In 2005 Nilesh obtained his Masters degree in endodontics with merit from the same University where he is also a part time clinical postgraduate endodontic tutor. He now limits his work solely to endodontics and enjoys helping practitioners, solve their complex endodontic issues.

Our Support team

The members of our support team are happy to answer patient enquiries about treatments and what they entail.

Anita and Lorna, our Clinical and course administrators, have many years' experience between them of working at simplyendo.

They also play important roles in the delivery of our teaching programmes.

New for 2009! Postgraduate Diploma in Endodontics

Message from Mike Horrocks

In late 2006, simplyendo joined in a collaborative partnership with Chester University to provide a Postgraduate Certificate in Endodontics. This programme is primarily aimed at busy dentists like yourself and has been structured as a distance learning programme as far as possible, with on campus atten-

dance kept to a minimum. This allows our programmes to hopefully fit in with your hectic schedules.

Having recently completed our inaugural groups of dentists who had signed up to our Postgraduate Certificate in Endodontics, the time has now arisen to embark upon the Diploma element of the programme.

It is anticipated that from late Spring of 2009, we will be

Offering a Postgraduate Diploma in Endodontics at Chester University, with prior successful completion of the PG Endodontic Certificate as a prerequisite for entry.

" Microscopic endodontics will form the core of the Diploma in Endodontics programme"

Our referral services are limited to endodontics and include

Management of curved canals	Management of perforation cases	Our fees Endodontic treatment of any tooth £595
Management of calcified canals	Management of open apex cases	
Retreatments (including removal of silver points where indicated)		Extra visit for consultation (if required) £125
Difficult access cases		Post removal from £250
Cases involving endodontic treatment on teeth carrying crowns and bridges	Placement of coronal restorations (if requested), including cores and posts	(fees effective from 1st July 2008)
Removal of fractured posts and instruments

The simplyendo concept!

The concept of simplyendo was first conceived many years ago as the old millenium drew to an end. The dream was very simple.....to create a service that would enhance the level of endodontic care throughout the United Kingdom.

simplyendo clinical started as a clinical endodontic referral service in the North West of England 10 years ago so you can be sure that all of our team are highly experienced in providing what's most important..... a thorough understanding of endodontics in the clinical environment!

All our team are highly trained in patient care, expert diagnosis and treatment planning and of course in the provision of endodontic treatment. simplyendo insists that its clinicians all hold **postgraduate qualifications in endodontics** at Masters level or equivalent. You as referrers expect the best care for your patients and we aim to provide that level of service every time.

simplyendo education has, since early 2003, provided endodontic training programmes throughout the United Kingdom from occasional short one day courses through to our regular 10 day endodontic programmes. Now in 2008, as we are completing our inaugural PG endodontic certificate programmes which run in conjunction with Chester University and run from their campus in Chester, plans are under way for a Postgraduate Endodontic Diploma. Details of this exciting new development will be posted on our clinical website at www.simplyendo.com

All of our team at simplyendo thank you for your interest and we look forward to many years of providing not only all your endodontic requirements but also providing you with regular deliveries of endodontic enthusiasm.

Best wishes,

Mike

Mike Horrocks and all the team at simplyendo
